What's New in the?

Pragmatisoft Photo Share Resizer shrinks your photos to reduce the photo upload time. Compared to the large original photo (usually several MB), each resized photo is a lot smaller (usually less than 100KB, depending on the selected target). Therefore, it reduces the time required to upload the pictures. How about quality? This program uses bicubic resizing algorithm, so that the quality of resized photos is maintained. In addition, if the proper target is selected, this program resizes to the matching size used in the slideshow, so that there is no further loss due to resizing by the photo service provider.Requirements: 1 Microsoft.NET Framework 1.1 Pragmatisoft Photo Share Resizer The program supports two resizing methods: resize to a specific target or resize to a specific target size. Pragmatisoft Photo Share Resizer Description: Pragmatisoft Photo Share Resizer shrinks your photos to reduce the photo upload time.
